ASTUTE
BUSINESS SOLUTIONS

Optimize Your Accounts Payable Operations with AstuteAP

An AI-driven Invoice Management for streamlined finance operations.

Managing accounts payable can be a labor-intensive and costly process, often leading to delays and errors. AstuteAP revolutionizes AP operations by using the power of Artificial Intelligence to handle invoice processing effectively while reducing manual and repetitive tasks. With Machine Learning technology, AstuteAP improves accuracy, speeds up invoice validation, and ensures better cash flow management.

Data Entry Errors

Problems:
Manual input increases the risk of mistakes.

Solution:
AI-powered validation checks ensure the accuracy of invoice data, reducing discrepancies and the need for manual corrections.

High Operational Costs

Problems:
Manual processes lead to longer processing times and higher expenses.

Solution:
AstuteAP helps businesses to save on operational costs with the power of AI to automate Account Payable operations and eliminate manual intervention.

What are the Business Benefits of AstuteAP?

01 **End-to-End Automation**

From data capture to approval, AstuteAP eliminates the need for manual input and minimizes errors.

02 **Increased Scalability**

AstuteAP can scale with your business, handling higher volumes of invoices without compromising efficiency.

03 **Reduced Errors & Costs**

With reduced manual error, you can create more efficient processes and lower costs when automation is used.

04 **Higher Accuracy**

AstuteAP intelligently validates invoices, catching inconsistencies before they become issues.

05 **ERP Integration**

Easily integrates with existing ERP systems like Oracle Cloud and PeopleSoft, ensuring seamless operation across platforms.

Real-World Impact

Customer A

Managing 10,000 invoices monthly with a team of 10, they faced high operational costs from manual processing. With AstuteAP, they can easily reduce manual workload, leading to significant cost savings and improved efficiency.

Customer B

Handling 25,000 invoices each month with a team of 25. However, an implementation of AstuteAP can streamline their processes. The result? Lower costs, faster processing, and enhanced accuracy across their Accounts Payable operation.
