Opt for Cloud Managed Services – Its time.

When operations of business-critical Oracle applications start taking up too much of your time and resources, you know its time to opt for Managed Services.

As an Oracle Gold Standard Partner, Astute offers to migrate, operate and monitor your business-critical PeopleSoft applications on cloud – a complete solution customized to your requirements. Our managed services cover Oracle Cloud infrastructure & platform services (IaaS & PaaS), and support for all PeopleSoft application versions. Moreover, you can choose a solution package as per your needs – Silver, Gold or Platinum – and still get the best of what we have to offer.

We are one of the leading Managed Service Providers for PeopleSoft Apps Unlimited on OCI. Our approach is unlike any of the traditional hosting service providers

No manual processes

No bringing together of assorted services

No additional cost for automated patching & monitoring for IaaS, PaaS, & PeopleSoft applications

PeopleSoft App Unlimited Package – What We Do
